Our cost structure

We are very competitive with the market and like to provide you with certainty as to the process of working with us and what you might expect. Our experience is that most people enjoy only good surprises. We also know that business owners like great value for money and for work to be completed under a mutually agreed timeframe.

To that end, before we commence work, we peruse the information that is provided to us and set out our costing terms and timeframe in an Engagement letter. Once our client has agreed to our scoping of the work and estimated costing, we then commence. This is our annual engagement process.

Once we complete the work, we meet with you and explain the outcomes and results of the work and then discuss our next steps with you.

We look forward to the opportunity of assisting you further with your business, and either Marissa Bennett or David Lennon, who are the partners at Marsden Stantons, can be contacted on (08) 9382 3244 to discuss your business needs further.

Have a wonderful day.

Our clients are important to us, as we partner with them to help them achieve their goals. We receive a lot of testimonials from our clients and we wish to share two of these with you.
